Yellow Cab Drivers Association/Ute Cab Company Inc Americans with Disabilities Act of 1991 (ADA) Policy and Procedures 4/1/2023

Introduction and Purpose

This ADA policy is written to establish operating and service guidelines and procedures for the implementation of the requirements of the Americans with Disabilities Act of 1990 (ADA), the U.S. Department of Transportation (U.S. DOT) regulations for implementing ADA (49 CFR Parts 27, 37 and 38), and applicable state laws and regulations.

Yellow Cab Drivers Association/Ute Cab Company Inc operates services on a fixed route basis, commingled on the same vehicle as ADA complementary paratransit. Yellow Cab Drivers Association/Ute Cab Company Inc complies with ADA requirements with respect to such services.

Policy Statement

It is the policy of Yellow Cab Drivers Association/Ute Cab Company Inc to comply with all the legal requirements of federal and state laws and regulations as they pertain to individuals with disabilities. If state laws and federal regulations are contradictory, the federal ADA regulations prevail. We provide quality transportation services without discrimination to all persons including individuals with disabilities. Discrimination on the basis of disability against any person will not be condoned or tolerated by our staff or driver fleet.

Goals:

Service is provided in a manner that meets these goals to:

1. provide safe, accessible, and dignified services to all persons, including individuals with disabilities.
2. expedite the safe and efficient boarding, securing, transporting, and alighting of all passengers, regardless of mobility status.
3. accommodate the wide range of mobility aids within the confines of available vehicles and commercial standard equipment.

Applicability:

This policy applies to all Yellow Cab Drivers Association/Ute Cab Company Inc employees, services, facilities, and vehicles. It applies equally to all persons needing and/or using the services provided by our companies.

Definitions:

Disability: With respect to an individual, a physical or mental impairment that substantially limits one or more of the major life activities of such individual; a record of such an impairment; or being regarded as having such an impairment.

Mobility Device: A device that is designed to assist an individual with disabilities with locomotion. Examples include wheelchairs, canes, crutches, and walkers. Also called mobility aid.

Securement Area or Station: A designated location for riders using wheelchairs, equipped with a securement system.

Securement Device, Equipment or System: Equipment used for securing wheelchairs against uncontrolled movement during transport.

Service Animal: Any guide dog, signal dog, or other animal that has been individually trained to work or perform tasks for an individual with a disability, including, but not limited to, guiding individuals with impaired vision, alerting individuals with impaired hearing to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair, or fetching dropped items.

Wheelchair: A mobility aid belonging to any class of three- or more- wheeled devices, usable indoors, designed or modified for and used by individuals with mobility impairments, whether operated manually or powered.

General Guidance and Procedures for Implementing Policy

Recruitment and Employment:

As stated in the Yellow Cab Drivers Association/Ute Cab Company personnel policies, the company is an Equal Opportunity Employer (EOE) and fully complies with ADA in its recruitment, hiring and continued employment practices.

Facility and Vehicle Accessibility:

Yellow Cab Drivers Association/Ute Cab Company Inc administrative facility, passenger facilities and vehicles shall meet or exceed the requirements of 49 CFR Parts 27, 37 and 38 and requirements of the state of Utah. If state requirements do not meet federal requirements, the federal ADA regulations prevail. All vehicles purchased for fixed route and route deviation service will be accessible. Vehicles purchased for demand response service will only be non-accessible to the extent that our operations system, when viewed in its entirety, provides the same level of service for individuals with disabilities as for individuals without disabilities.

Vehicle and Route Assignment:

The demand response system of Yellow Cab Drivers Association/Ute Cab Company Inc, when viewed in its entirety, is accessible. All trips by wheelchair users will be assigned to accessible vehicles. To the extent possible, the assignment of particular types of vehicles will be based upon rider needs. Trip denials will be tracked by whether or not a rider requires use of the lift or ramp, to monitor that service is not disproportionately denied to individuals with disabilities because an accessible vehicle is not available. Yellow Cab Drivers Association/Ute Cab Company Inc. provides demand response rural public transportation and provides equivalent service to individuals with disabilities, that is consistent with U.S. DOT ADA regulations under 49 CFR Part 37, Section 37.77. This transportation will be provided in the most integrated setting appropriate to the needs of the individual and will be equivalent to the service provided other individuals with respect to:

- Response time
- Fares
- Geographic area of service
- Hours and days of service
- Restrictions or priorities based on trip purpose
- Availability of information and reservations capability
- Any constraints on capacity or availability

Maintenance of Accessible Features:

Accessibility features on vehicles, including lifts, ramps, wheelchair securement devices and public address systems, will be maintained in operative condition. The preventive maintenance program of Yellow Cab Drivers Association/Ute Cab Company Inc. provides for regular and frequent maintenance checks of these features as well as preventive maintenance as recommended by the equipment manufacturers. In addition, the lift must be cycled as part of each pre-trip inspection as required by ADA.

Inoperative Lifts and Ramps:

Drivers are required to report lift or ramp failures immediately. Vehicles with inoperative lifts will be removed from service and replaced with an accessible vehicle until the inoperative lift is repaired. For vehicles equipped with ramps, it may be possible to continue in service as long as the ramp can be and is deployed manually when necessary. If an inoperative ramp cannot be (or is not) deployed manually, the company will apply the policy for a vehicle with an inoperative lift.

Wheelchair Accommodation:

All accessible vehicles meet or exceed the requirements of 49 CFR Part 38. Transportation providers are required to carry a wheelchair and its user, as long as the lift can accommodate the size and weight of the wheelchair and its user, and there is space in the securement area for the wheelchair on the vehicle without blocking the aisle. If a vehicle lift/ramp and securement area can accommodate a wheelchair (or other mobility device), Yellow Cab Drivers Association/Ute Cab Company Inc will transport the device (and its user).

An individual who uses a wheelchair that, when occupied, exceeds the weight rating of the vehicle lift/ramp, will be offered the opportunity to board and disembark from the vehicle separately from the wheelchair. However, company personnel are not (required **OR** permitted) to operate a passenger's wheelchair. The individual may travel with another individual who can assist with operating the unoccupied wheelchair to maneuver it on and off the lift/ramp.

Boarding:

Drivers and scheduling practices will provide adequate time for a passenger with a disability to board and/or disembark the vehicle, which includes adjusting the schedule if necessary and waiting for passengers to be seated before moving the vehicle. Only a properly trained company employee can operate the lift or ramp and secure the wheelchair in the securement station. Passengers may board facing toward or away from the vehicle.

Wheelchair Securement:

Yellow Cab drivers Association/Ute Cab Company Inc does not require that wheelchairs be secured on board the vehicle. However, the driver will secure a passenger's wheelchair if requested by the passenger. Drivers cannot deny a passenger a ride based on the inability to secure the wheelchair. However, drivers must warn the passengers of the danger of riding in a non-secured wheelchair. Passengers who refuse to allow their wheelchairs to be secured may be denied service if the driver believes the ride will be unsafe.

Securement of wheelchairs is the responsibility of the driver. Drivers are trained in the proper operation of all securement equipment based on the equipment manufacturer's specifications. Drivers will listen to and respect riders' instructions on how to secure their equipment. Drivers cannot be expected to be familiar with each and every wheelchair type that may come aboard, and securement attachment points may differ by wheelchair manufacturer.

The rider may be in the best position to instruct the driver on how to properly secure their mobility device. If the securement system is not compatible with the wheelchair the passenger is using, the driver will still make an attempt to safely secure the wheelchair. If the wheelchair cannot be secured because of the wheelchair design, the passenger still has the right to ride in the vehicle. Drivers must secure wheelchairs in the designated securement area only, even if the passenger wants their mobility device to be secured in a non-designated area. The wheelchair is not allowed to block the aisle.

Seat belts and shoulder harnesses are recommended but not required for passengers riding in their secured wheelchair. However, an organization paying for transportation can expect the passenger to comply with THEIR specific securement policies to insure payment for the transportation.

Driver Assistance:

Drivers will make themselves available to assist individuals with disabilities and will assist upon request of the passenger. Drivers will assist a passenger with using the vehicle ramp, lift and/or securement systems using the accessibility-related equipment and features on their vehicles.

Use of Lift or Ramp by Individuals with Disabilities Not Using a Mobility Device:

The driver will deploy the lift or ramp for an individual with a disability who is not using a mobility device to board or alight the vehicle upon request.

Accommodation of Other Mobility Devices:

Mobility devices that are not wheelchairs, but which are primarily designed for use by individuals with mobility impairments, will be accommodated to the extent that the ADA compliant lift or ramp and securement areas can safely do so. However, these devices are the responsibility of the individual passenger and must be secured in a manner that does not interfere with the safe operation of the vehicle and the transport of other passengers.

Transfer to Fixed Seating:

All passengers using wheelchairs have an option of transferring to fixed seating once on board the vehicles. Drivers may recommend, but never require, wheelchair users to transfer to fixed seating. No waivers are allowed to be required.

Accommodation of Portable Oxygen:

Individuals are allowed to travel with respirators and portable oxygen supplies on board, consistent with applicable U.S. DOT rules on the transportation of hazardous materials in 49 CFR Subtitle B, Chapter 1, Subchapter C. [Note: U.S. DOT requirements related to transportation of hazardous materials not part of the U.S. DOT ADA requirements and thus are not spelled out in this ADA policy.]

Priority Seating:

With the exception of the wheelchair securement stations, Yellow Cab Drivers Association/Ute Cab Company Inc does not require any passenger to sit in designated seating. Priority seating for seniors and individuals with disabilities is to be designated by permanent signage in each vehicle. In cases where an individual with a disability requests use of priority seating that is currently occupied by another passenger, the driver will ask that passenger to move so as to allow the individual with a disability use of the priority seating. In cases where a wheelchair user requires the use of a securement location, the driver will ask any passenger (including other passengers with disabilities) to vacate the securement location.

Service Animals:

In compliance with 49 CFR Part 37, Yellow Cab Utah/Ute Cab Company Inc allows trained service animals to accompany passengers with disabilities. The driver will not ask for proof of the qualifications of the animal but may ask what tasks the animal has been trained to perform. However, any animal which is not under the passenger's control, or which becomes a direct threat to the health or safety of other passengers may be restricted from riding.

Alighting:

It is the responsibility of the driver to determine that the location for passenger alighting is safe. The driver will allow a passenger who uses the lift or ramp to alight at any stop, unless the lift or ramp cannot be deployed, will be damaged if deployed, or conditions at the stop would present unsafe conditions for all passengers. Only the driver will unsecure the wheelchair and operate the lift or ramp to return the passenger to the ground level.

Staff Training:

All drivers and company staff are trained to proficiency in use of accessibility equipment, the operating policies related to each of the service requirements described, and in properly and respectfully assisting and treating individuals with disabilities with sensitivity. Mechanics are also trained to properly maintain lifts and other accessibility equipment.

Rider Information:

All printed informational materials are made available in accessible formats upon request, for example, large print for individuals with low vision or audio for blind individuals, as well as accessible electronic formats.

Complaint Procedure:

All complaints of discrimination on the basis of disability will be promptly and objectively investigated and forwarded to the management of Yellow Cab Drivers Association/Ute Cab Company Inc to ensure compliance with 49 CFR Part 37. Yellow Cab Drivers Association/Ute Cab Company Inc management will promptly communicate its response to the complaint allegations, including its reasons for the response, to the complainant. The response will be documented. Corrective or disciplinary action will be taken for behavior prohibited by this policy, up to and including termination of employment.

To file an ADA or discrimination complaint with Yellow Cab Drivers Association/Ute Cab Company Inc please follow this link:

<https://yellowcabutah.com/assets/docs/TitleVlandADAComplaintForm.pdf>, download, fill out the form, and submit it to info@yellowcabutah.com.

Documentation of each complaint will be kept on file for a minimum of 5 years to comply with 49 CFR Part 27.

Reasonable Modification of Policy:

If a passenger with a disability requires modification of any of our company's policies and practices to accommodate their disability to use the service, the passenger may request such a modification by contacting safety at info@yellowcabutah.com. The company will work with the individual to find an acceptable accommodation solution. Where a request for modification cannot practically be made and determined in advance, staff will decide whether the modification should be provided at the time of the request. Operating personnel will consult with management before making a determination to grant or deny the request.

Requests for modification of policies and practices may be denied only on one or more of the following grounds:

- Granting the request would fundamentally alter the nature of Yellow Cab Drivers Association/Ute Cab Company Inc services, programs, or activities.
- Granting the request would create a direct threat to the health or safety of others.
- Without the requested modification, the individual with a disability is able to fully use Yellow Cab Drivers Association/Ute Cab Company Inc's services, programs, or activities for their intended purpose.

If Yellow Cab Drivers Association/Ute Cab Company Inc denies a request for a reasonable modification, the agency shall take to the maximum extent possible, other actions (that would not result in a direct threat or fundamental alteration of service) to ensure that the individual with a disability receives the services or benefit provided by the company.

Guidelines for Implementing Policy Specific to Demand Response Services:

Service in the Most Integrated Setting: Yellow Cab Drivers Association/Ute Cab Company Inc demand response transportation service can be a shared-ride service. It is the policy of Yellow Cab Drivers Association/Ute Cab Company Inc to provide service for individuals with disabilities in the most integrated setting appropriate to the needs of the individual, including providing service to individuals with disabilities on the same vehicles and together with other riders.

Service Characteristics:

Yellow Cab Drivers Association/Ute Cab Company Inc shall ensure that individuals with disabilities receive the same level of service as individuals without disabilities. The demand response system of Yellow Cab Drivers Association/Ute Cab Company Inc, when viewed in its entirety, provides an equivalent service to individuals with disabilities, including individuals who use wheelchairs, with respect to the following service characteristics:

- Response time:** Individuals with disabilities may need to reserve services further in advance than other individuals.
- Fares:** Individuals with disabilities are not charged higher fares than other individuals with the exception of loading and unloading fees.
- Geographic area of service:** Individuals with disabilities can use the service to travel to and from the same areas as other individuals.
- Hours and days of service:** individuals with disabilities can use the service during the same days and hours as other individuals, provided a reservation is set as an ADA vehicle requirement.
- Restrictions or priorities based on trip purpose:** Travel by individuals with disabilities is not restricted by trip purpose any more than travel by other individuals.
- Availability of information and reservations capability:** Individuals with disabilities have access to the same information and reservations capability as other individuals, provided vehicle access is similar.
- Any constraints on capacity or service availability:** Travel by individuals with disabilities can be limited by capacity, but not extensively more than travel by other individuals provided vehicle access is similar.

Passenger Assistance:

Demand response services will be provided on a curb-to-curb or door-to-door basis. Yellow Cab/Ute Cab drivers will assist riders with disabilities in boarding and alighting from vehicles and in securing wheelchairs. Drivers who operate ADA vehicles for Yellow Cab/Ute Cab services will be proficiently trained in passenger assistance and sensitivity towards persons with disabilities. The staff of Yellow Cab/Ute Cab will not lift a passenger, leave a vehicle unattended or out of visual observation for a lengthy period of time, enter a rider's home, care for service animals, operate a power wheelchair, provide personal care attendant (PCA) service, or take actions that would be clearly unsafe. If more extensive assistance is needed by the individual than the companies can provide as transportation, the individual will be responsible for arranging for personal assistance. Yellow Cab/Ute Cab staff will work with the individual and/or their caregiver/social worker to clarify parameters of the assistance that can be provided by the driver and formally document this in a letter sent to the individual.
